

## LINES - NYLON

### VACUUM

- High quality monofilament vacuum packed in a metal tin by laboratory to keep it in optimum conditions until the fisherman is ready to fish
- The unique SILSTAR VACUUM system has been developed to minimize the line deterioration in delivery and storage.
- Better flexibility, stable knot strength and less spool memory
- Available in 150M spool (1311) and 200M spool (1309) in clear nature color
- Available in 150M spool (1308) and 200M spool (1310) in grey brown color
- Produced and spooled in Europe
